# Wellbeing at School Surveys

Surveys were conducted with the students in March to find out their views of how school life contributes to creating a safe and caring climate. Wellbeing@School Survey was chosen for the Year 5-8 while the Years 1-4 did the FeelBrave Survey.

## Pre-programme Average School Results across all classes

Self-Confidence	96%
Resilience	99%
Response-ability	90%
<b>Total Averages</b>	<b>95%</b>

This is the overall average results for the Years 1-4. They were asked to rate themselves on statements such as: I like myself, I have lots of good friends, I know what to do with my worries etc,

These graphs show positive results from the students in regards to their wellbeing at Kāwhia School. They see our school have strong home-school partnerships and aggressive student culture is very low. The square shaped graphs shows our school performs stronger in comparison to the rest of New Zealand in all aspects. We are now on Tier 2 of our Positive Behaviour for Learning/Whakamana Tamariki Training as part of our wellbeing strategy.
